

How do I export the calendar?

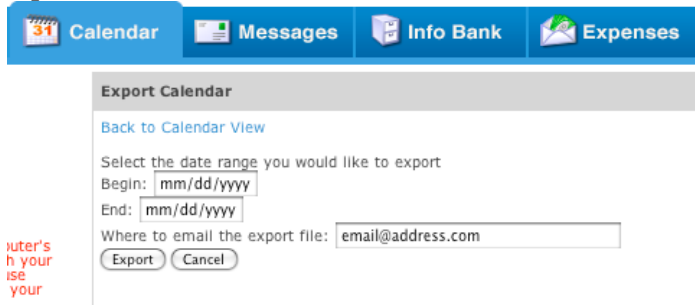

To export the calendar you must first select the calendar tab from the navigation header.

1. In the left margin of the calendar you will find the “export” link.

2. Once you are in the export calendar screen, you will add the date range you wish to export and the email address you wish to export it to.

3. You will receive an email with the attached file that you can upload to your calendar that will add the events from your Our Family Wizard calendar to your other calendar. Note: You will not be able to export your parenting schedule.
